

# Serving Missouri

Community Engaged  
Learning

# Curriculum- Based Service

\*Service-learning courses include community engagement as part of the coursework.

\*The service meets real needs in the community as well as meets the teaching goals of the course.

# Getting Started

- Mapping campus assets
- Looking at multiple disciplines

# Defining Constituencies

- Faculty/staff
- Community Partners
- Students

# Community

Community size

Assessing community needs

Non-Profit organizations

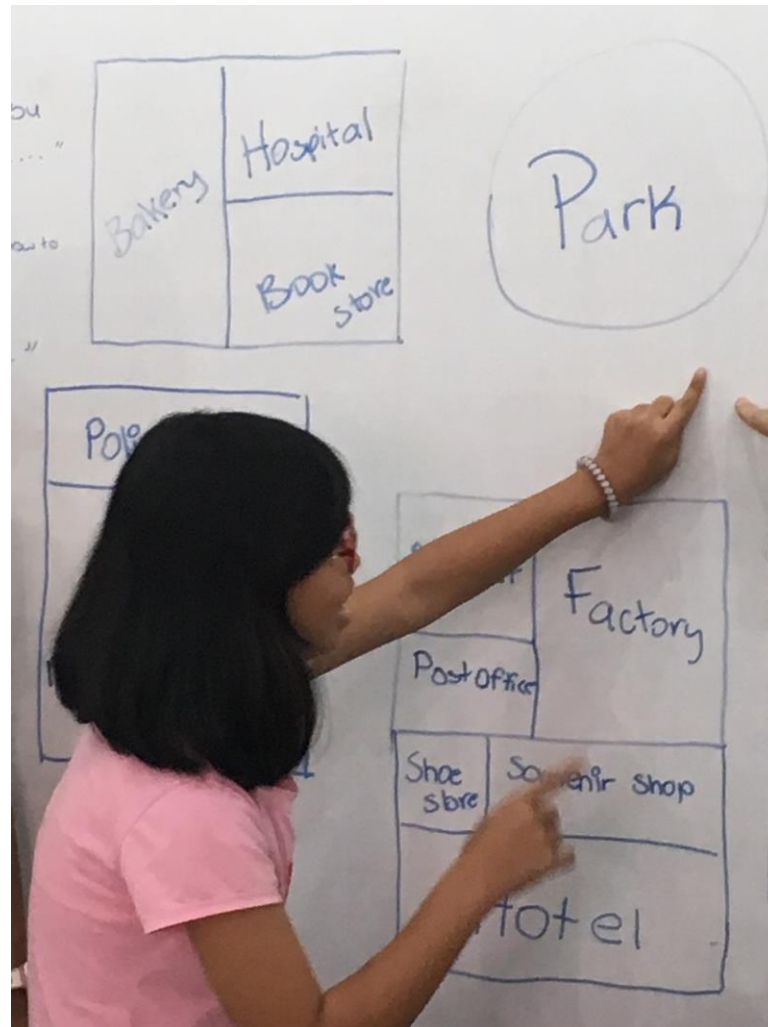

Building community capacity

# Your campus culture

- Where are the opportunities for long term and sustainable course development?
- What are courses where all students may participate?
- What signature programs can be sustained in individual departments?
- What are the particular needs and challenges of your faculty?

# High Impact Educational Practice

# Learning Goals

- Professional development
- Diversity, Equity and Inclusion
- Understanding community issues and challenges
- Promoting public service careers

# Leveraging Resources to Transform Communities

- How do we leverage the resources we have to transform education and communities?
